Giraffe Dustless Sander *Spare parts and service available*

The Giraffe revolutionises plasterboard sanding

SANDS WALLS AND CEILINGS

The swivel-mounted head adapts to every angle surface: you always work in a comfortable position that's easy on the operator.

A FINE FINISH

The patented sanding pads are cushioned to eliminate swirl marks.

REACHES EVERYWHERE

With the long giraffe neck, you can even reach 3m high ceilings without ladders, stilts or scaffolding.

COMFORTABLE TO USE

The sanding head in front, the motor in the middle, the guide handles in the back: the optimally balanced distribution of weight provides balance and precise control.

LIGHTWEIGHT

The entire tool weighs only 3.8kg, permitting hours of continuous work without fatigue.

TREMENDOUS DUST PICKUP

A healthier environment to work, no dust on furniture and carpets: the vacuum collects dust through the sander tube as you sand.

Large Cushioned Super Pads

Perforated – assists dust extraction and resists clogging

Long Lasting – high quality abrasive manufactured in Germany. Unique coating resists clogging.

Cushioned Backing – Eliminates scratch & swirl marks and ensures the tool "rides the joint" without excessive pushing required.

Velcro – change pads in seconds.

Large Sanding Area – large 225mm full sheet for faster sanding, requiring only 2 sweeps per joint.

Carry Bag (optional accessory)

Sanding head adapts to every surface angle for fast, easy and dustless sanding in every working position.

**FASTER!
EASIER!
CLEANER!**

Main Filter Cartridge

Huge 7200cm² filter surface area allows optimum filtration of very fine dusts. Polyester material is easy to clean and resists clogging

Pre-Filter Bag

Allows for bagless operation. Made from a polyester needle felt with fine pored foam and microporous coating. Produces optimum protection and filtration of very fine dusts and prevents suction loss.

Vac Accessories

Optional Accessory Pack

Starmix Dust Extractor

- Specially designed for fine dust filtration. Wet or Dry.
- Super powerful suction - 61ft/sec - 248mbar.
- Bagless canister unit - FREE pre-filter sack provided.
- Huge pleated polyester main filter - 7200cm².
- Huge 30 or 32 litre capacity.
- Plastic or stainless steel canister available.
- Automatically turns On & Off with sander.
- Spare parts and service available. Made in Germany.
