

NEW

GENERATION BREAKTHROUGH!

- **Telescopic design – one piece.**

User friendly whether sanding in a closet or a 3m ceiling!

- **Interchangeable heads – round and triangle.**

Allows for perfect sanding of flat joints and now . . . square set and internal corners!

- **Outstanding performance.**

German designed and manufactured – ensures superior quality, reliability & performance.

- **Rugged Carry Case.**

Holds tool, two heads, hose and abrasives.

However you hold the Vario-Giraffe, you will always find the ideal grip position for comfortable, fatigue-free working. The uniform weight distribution and centrally positioned motor ensure that the Vario-Giraffe is always optimally balanced. This minimises top-heaviness when sanding, significantly easing the strain on the operator.

Supplied FREE with unit

FLEX Vario Giraffe Dustless Sander

- Technology • Innovation • Interchangeable Heads

Quick change – tool free.

Tool free change-over of the round and triangular sanding heads. Rugged uni-joint and bearings.

Effective dust extraction from between the brush ring and the sanding pad and through the 10-hole extraction ports prevents premature clogging of the abrasive.

Variable speed control ensures optimum speed setting for sanding different types of surfaces.

Evenly distributed weight for fatigue free operation. Numerous additional grip positions to ensure optimal balance.

2 Year Warranty

Handle assembly rotates through 360° to maximise operator comfort and balance.

Snap fitting of extractor hose.

One piece telescopic extension from 1330mm to 1730mm.

Powerful 710w motor.

Easy to operate telescopic lock. Open lever – pull out grip – close lever.

Available at leading plasterboard outlets or contact Intex Drywall Systems for your nearest distributor
